---

## ***Professional Summary***

Dynamic and results-driven **Full-Stack Developer** with a strong background in **Java (Spring Boot)** for backend development and **React, Angular, and JavaScript** for front-end solutions. Experienced in designing, implementing, and optimizing modern web and mobile applications. Proficient in **RESTful API integration, cloud computing (Azure, Google Cloud), and DevOps (CI/CD, Azure DevOps)**. Passionate about problem-solving, team collaboration, and delivering high-quality, scalable solutions.

---

## ***Technical Skills***

### **Programming & Frameworks:**

- **Front-End:** React, Angular, TypeScript, JavaScript, Ionic, HTML5, CSS, Bootstrap
  - **Back-End:** Java, Spring Boot, Node.js, JSP, RESTful APIs
  - **Cloud & DevOps:** Microsoft Azure, Google Cloud, Docker, Azure DevOps, Firebase
  - **Databases:** SQL, MongoDB, MySQL
  - **Tools & IDEs:** NetBeans, Visual Studio Code, Eclipse, STS, UML, XAMPP
  - **Testing:** Postman, Selenium, JUnit, Swagger/OpenAPI
- 

## ***Work Experience***

### **Software Developer | SA@PLAY (Oct 2021 – Present)**

- Developed and maintained **React-based front-end applications** and **Spring Boot back-end APIs**.
- Integrated third-party APIs and **deployed applications to the App Store and Google Play**.
- Led the **design and implementation of cloud-based solutions** using Azure DevOps.
- Ensured system security, performance optimization, and efficient database management.
- Collaborated with cross-functional teams, UX designers, and business analysts to achieve project goals.

### **Junior Software Developer | Ejoobi (Oct 2018 – Sep 2021)**

- Designed and developed **Java-based applications** with **Spring Boot and Angular**.

- Built **front-end components** using Angular and React for an improved user experience.
- Managed **SQL and MongoDB databases**, ensuring data integrity and performance.
- Implemented **CI/CD pipelines** to automate deployment processes.

### **Mobile Development Intern | MLab (*Mar 2018 – Oct 2018*)**

- Developed mobile applications using **Ionic Framework (TypeScript) and Firebase**.
- Assisted in integrating cloud storage solutions for scalable mobile applications.
- Contributed to front-end development using AngularJS and modern UI frameworks.

### **Software Development Intern | Reverside (*Feb 2017 – Sep 2017*)**

- Developed web applications using **Java and JSP**.
- Conducted **automated testing with Selenium** to ensure software quality.
- Assisted in setting up development environments and writing assessments for specific programming languages.

### ***Education & Certifications***

- **N.DIP Information Technology (Technical Applications)** – Tshwane University of Technology (2013 - 2018)
  - **Microsoft Azure Administrator Associate** – Certified
  - **Ionic Framework Development** – Certified by MLab
- 

### ***Projects & Achievements***

- **Developed and deployed enterprise web applications** with React and Spring Boot.
  - Successfully optimized API performance, reducing response times by **30%**.
  - Implemented real-time data visualization dashboards using React and RESTful APIs.
  - Developed a **smart job-matching platform**, improving efficiency by **40%**.
- 

### ***Soft Skills***

- Strong problem-solving and analytical skills
  - Effective time management and task prioritization
  - Excellent communication and teamwork abilities
  - Adaptable and fast learner in emerging technologies
-
